

DATE: February 7, 1994

REVISED

TO: District Engineers
District Field/Construction Engineers
Resident/Project Engineers

FROM: Gerald D. Dobie
Engineer of Construction

SUBJECT: **CONSTRUCTION INSTRUCTIONAL MEMORANDUM 1994-4 (formerly 1994-2)**
Ticket Requirements for Concrete Batch Plants

A certification from the contractor/concrete producer on each ticket stating that all materials are either certified or tested is not needed if the plant is dedicated to only producing material for one M•DOT project. The project plant records must contain all required documentation relative to certification or testing of materials. A printed statement on the tickets would therefore be redundant. Please apply these procedures to all plants for this construction season.
